

Summer research meeting 1

Possibilities - bayesian network, possibility of neural network

combo of math, statistics, computer science.

read over bayesian network - research! modeling

more accurate coronavirus models, prediction of coronavirus

groups of 5, mixed years.

goals - 2 months, observation work done

- by August should be done and submitted

bayesian network on data — MAGIC

By some time Sunday, May 24, read sections 5-7 of research paper on bayesian networking. Preferably read all of it
